SUMMARY

UI/UX Designer with hands-on experience in creating user-friendly, modern, and visually engaging digital interfaces. Skilled in UI design, wireframing, prototyping, and design systems using tools like **Figma**. Eager to learn, explore new design trends, and grow through real-world projects while contributing creative ideas to a collaborative team.

EXPERIENCE

Least Action Company (UI/UX Designer Intern)

May 2026 - Present

- **UI/UX Design:** Learned user research, wireframing, prototyping, and creating user-friendly interfaces using **Figma**.
- **Logo and Brand Design:** Gained experience in creating creative logos, brand identities, and visual concepts.
- **AI-Assisted Design:** Learned to use **ChatGPT, Canva, Gemini, and AI tools** for generating design ideas, content, concepts, and creative visuals.

Marvelloux Design Studio – (UI/UX Designer Intern)

6 Months

- Contributed to real-world UI/UX projects, creating user flows, wireframes, prototypes, and modern interfaces using Figma.
- Developed skills in design systems, visual hierarchy, typography, and responsive layouts while working on real-world digital projects.

PROJECTS

ProLink App — Everyday Services and Booking Platform.

Tools : Figma, Stitch, Affinity, ChatGpt.

- Designed the Pro-Link on-demand services app for booking everyday services including cleaning, cooking, driving, cab booking, and delivery.
- Created user flows, wireframes, and high-fidelity UI designs using Figma, focusing on usability and seamless navigation.
- Developed a consistent and intuitive booking experience with structured service categories, provider details, and booking management.
- Conducted UX improvements and design iterations based on project requirements, ensuring a clear, efficient, and user-centered service booking experience.

Voluntee App — Voluntee is a Platform for Community Volunteering.

Tools : Figma, Stitch, Affinity, ChatGpt.

- Designed Voluntee, a community-driven platform that enables users to connect with people nearby, participate in real-world activities, offer help, and earn reward credits through meaningful contributions.
- Created user flows, wireframes, and high-fidelity UI designs in Figma, incorporating community participation, activity discovery, and reward-based engagement for a simple and engaging user experience.

Gloaro Digital Network – Gloaro is a business-focused platform. (Website)

Tools: Figma, Stitch, ChatGpt

- Designed a multi-vendor marketplace experience for Gloaro Mart, focusing on seamless product discovery and purchasing.
- Designed vendor and B2B application workflows, including registration, verification, and approval processes.
- Created intuitive admin dashboard interfaces for managing vendors, memberships, franchises, and B2B applications.
- Applied user-centered UX principles to improve navigation, information hierarchy, and overall usability across the platform.
